HELPFUL CUSTOMER GUIDE

Your funeral director can help you to cope with your loss at this emotional and sad time, and will also arrange the details of your funeral, whilst taking into account the wishes of the deceased and family members. With the family's request, the funeral directors can also be involved with the details of your coffin, especially if you are looking to have a coffin that is personalised too.

We will work alongside you and your chosen funeral director to help manufacture your coffin to the specifications you will need. Your Funeral Director can be the guide to establish the requirements for your coffin from Greenfield Creations.

A few things you and your funeral director may need to consider:

All coffins on our website not only have names but they have their own code and this helps to distinguish exactly which one you are interested in and these are displayed:

Our coffins are standard sizes with bespoke sizes too if required, please discuss this with your funeral director, who can also help with the base options for cremation, handle requirements and name details.
